INTRODUCTION

INTRODUCTION TO PRIORITY BASED BUDGETING

DESCRIPTION

The Village of Hawthorn Woods continues to actively demonstrate transparency and accountability to its residents. Perhaps the greatest ongoing achievement, and a key component to our success, is the synergy between elected officials, appointed staff, the residents, and the greater community of Hawthorn Woods. With excellence as a benchmark in our everyday work plan, Hawthorn Woods continues to lead in excellence in public governance, public management, and public accountability. As a testament to this benchmark, Hawthorn Woods has been twice recognized by America in Bloom as a national award winner for one of America's best places to live. Hawthorn Woods was named Community Champion in our population category for its vitality, environmental efforts, community involvement, and overall achievements.

As a result of our innovative approach to serve the public with transparency and excellence, we are now in the fifth year of our Priority Based Budget, our financial document that integrates budget policies, stakeholder goals and interests, financial revenues (input) and expenditures (output), which reinvented the role of local government budgeting in Hawthorn Woods. Village Department Directors have reviewed their priorities for 2021, and because of the global pandemic and resulting economic fallout, many of those initiatives are on hold for the year. The 2021 Budget is a sustainable budget that was carefully planned to provide excellent municipal services and conservatively guide the Hawthorn Woods community through an uncertain global economy.

Most organizations know what they do and how they do it. Very few have taken the internal auditing exercises to determine why our Village Government in Hawthorn Woods desires to perform with excellence. We value results, and wish to allocate our resources to programs and services based on the highest importance, and not just on historical traditions. Instead of traditional numerical mapping and scoring, we have prioritized the funding of programs and services based on the highest degree of relevance to result. In some cases, there is a legal requirement that makes the programs essential. In contrast, there may be services or programs provided that serve a lower degree of relevance, perhaps impacting only a handful of residents. Budgeting during a pandemic presented its own set of challenges, but one thing did not change. The safety of our community remains our highest priority.

We identified our highest priority infrastructure needs after forming a Citizen Task Force in 2018 to assist us with determining the best way to fund our street, drainage, and culvert projects. We presented to the public a referendum question in March of 2020 to ask authorization from the village residents to create a new funding source to initiate a road maintenance program. The referendum was not successfully passed at the election, and the Village continues to have a plan for street maintenance without a current funding source to implement such a program.

The Evolving Municipal Budget

According to Jon Johnson and Chris Fabian from the Center for Priority Based Budgeting, the evolution of the municipal budget has changed over the past few decades, but many municipalities have remained comfortable with the basic antiquated formula for government reporting. Calling on a new mindset and re-inventing the financial reporting process demands a great deal of time and commitment for all parties involved in shaping innovative budgeting. Listed below are some commonly recognized governmental budget documents that have evolved in governmental reporting.

1. **The Line Item Budget:** The Line Item Budget became a standard way of financially accounting for expenditures. They were hard to decipher, and were assigned numerical values by an account driven type of expense. The focus of what the government spent took precedent over any other information provided by the budget. It was a book of numbers about spending and purchasing.
2. **Incremental or Target Based Budget:** Expanding from the Line Item Budget, this style emerged as a general way to analyze spending from a broader departmental perspective.
3. **Performance Based Budget:** The Performance Based Budget started to measure results from expenditures, and not just what governments spent but rather how much is accomplished with a value given to the expenditure.
4. **Zero Based Budget:** The Zero-Based Budget was designed to create a base level of appropriation each year from “scratch” taking the line item budget and proving up funding needs annually. What was allocated in the prior year did not account for the next year’s allocation.
5. **Program/Priority Based Budget:** The Priority Based Budget, also known as the Program Based Budget, emphasizes the budget as more than an accounting document. The Program Based Budget addresses priority policy and program initiatives, allowing the budget planners to allocate limited funds among competing needs. It focuses on what the government does, how it does it, and why the service or program is important. It can also assign a priority value from critical to low and builds the budget on how and why the funds are utilized in the community.

The Value of Priority Based Budgeting in Hawthorn Woods

As a community that takes great pride in our award-winning innovative entrepreneurial approach to local government, this approach to exceed business as usual for governmental financial reporting ascends the Village to the highest level of excellence and transparency for our residents. This document allows the Village to more clearly depict our revenues and expenditures to plan for enhanced financial decision making. This data collection and research analysis allows governmental officials to make informed choices regarding the distribution of finite funds for capital assets, operational demands, core services, and future programs and projects. It is a direct result of stakeholder participation and can be annually designed to reflect the current priorities of the Village, as compared to a traditional departmental allocation. In a Village like Hawthorn Woods, where the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting has been awarded, we challenged ourselves to reach a higher level of excellence and initiate the priority-based budget process.

The purpose of Hawthorn Woods' evolving priority based budgetary process is to provide a framework for allocating resources to fit with the priorities and future needs identified by the Hawthorn Woods community, creating a transparent citizen-driven document that bases fiscal planning on real needs and identifiable program usage. It is a hybrid of the zero-based budgeting process to which we currently subscribe, and includes elements of program based, and results-based initiatives. This document is a hands-on tool that will be updated annually to assist in directing decision-making on results and outcomes based on informed choices and prioritized strategies. In short, it will facilitate the direction of our funding to receive the best return on our investment.

We have integrated the Village's Comprehensive Plan, with its citizen priorities list and strategic roundtable results. This priority-based budgeting document used the raw collected data and assessed priorities that were identified by our key stakeholder interviews, open house roundtables, electronic feedback forms, resident call logs and discussions with consultants. They also include interviews from elected officials and appointed Village boards and commissions.

Data presented in this document is reviewed annually and summarized in Priorities 1.1 through 1.7 that will be assigned to every line item request in our operating and capital budget ("Budget Book"). The priorities are listed first as raw data collected from stakeholders in no particular order. The initiatives are then summarized as a results priority map, depicting the priorities that will be funded in the operating and capital budgets. The raw data was assembled from a series of stakeholder involvement opportunities, including:

- 2012 Street Maintenance Improvement Report (Pavement Management Report)
- October 9, 2013 Business Workshop conducted by Houseal Lavigne Associates
- October 16, 2013 Community Workshop roundtable discussions conducted by Houseal Lavigne Associates
- 2014 Comprehensive Plan stakeholder survey results from citizens, staff, committee, and Village Board written submissions
- 2016 Market Analysis interviews conducted by AECOM
- 2016 Village-wide Analysis of Drainage Problems
- 2017 AECOM Market Analysis Report 2018
- 2018 Citizen Feedback from infrastructure surveys

2018 America in Bloom Judges Analysis Feedback Report for the Village of Hawthorn Woods
2019 America in Bloom Analysis Feedback Report for the Village of Hawthorn Woods
2020 America in Bloom Analysis Feedback Report for the Village of Hawthorn Woods

Priority Determinations for 2021

With several top priorities all competing for limited financial resources, the Village is undertaking smaller projects that have great impacts to the public. Over \$3.5 Million dollars of projects were cut from the Budget request hearings due to lack of funding. This year, the following funding requests that made the review cuts take top priority in the Village operating and capital budget:

- During the pandemic, promote a safe and healthy community
- Comply with State and federal mandates
- Provide excellent customer service, amenities, and municipal deliverables to the citizens of Hawthorn Woods
- Prioritize health, safety, and welfare issues
- Keep Village roads drivable and in safe condition for motorists
- Prioritize protection of residential and corporate structures from flooding, before addressing accessory structures and property flooding
- Improve modernization of Village-owned technology and software moving forward with BS&A in 2021 to provide better efficiency for residents
- Plan strategic economic development opportunities and revenue generating opportunities (i.e., matching grant opportunities)

As a priority in 2021, we have identified the following major projects that comply with these Priority standards:

1. Convert system software with BS&A in 2021 as Windows 2007 is no longer supported through security portals
2. Integrate our sustainability Coordinator provided through the Metropolitan Mayor's Caucus' Americorp Program to outreach to our neighborhoods and businesses with sustainable community enhancement programs
3. Purchase a street planer for asphalt in-house patching rather than contractual work
4. Meet the requirement for Gilmer/Midlothian bike path 20% match
5. Complete Meadowlark Park off of Schwerman Road with final implementation plan
6. Complete the Village's first Arboretum at Meadowlark Park with tree signage
7. Fund legal initiatives as determined by the Board of Trustees
8. Continue the pursuit of Environmental Excellence and make Hawthorn Woods a leader in the region, state, and nation with programs such as the International Dark Sky Association, National Audubon Society, and the America in Bloom initiatives

Linking the Budget to Organizational Goals

Our 2021 Budget Book includes a direct link and critical value reference location between the Budget Book and the Priority Based Budgeting document. This initiative will align the best management practices in the industry, and enable the Village of Hawthorn Woods to be an innovative leader in government transparency, aligning our resource allocations (input), with our community's expectations (output). We believe this communication tool will serve as a working document for planning, budgeting, and connecting our vision and goals to action-oriented deliverables of services and programs.

Our Budget Book funds the highest priority items as identified by our stakeholders. We have aligned the financial resources in the budget with strategic feedback generated from our residents, elected and appointed officials, business partners, daytime work force, employee base, educational community, and governmental partners. The 2021 Budget Book reflects authentic citizen influence and transparent accountability of public funds.

As a result of integrating our Priority Based Budget document along with our 2021 Budget Book, we are pleased to provide to the community an innovative and transparent document that prioritizes operations with safety, including providing purchases, programs and services based on the actual priorities of our residents.

Respectfully Submitted,

REVENUE SOURCES (INPUT)

REVENUE SOURCES (INPUT)

WHERE DOES THE MONEY COME FROM?

The Village's main revenue stream is based upon the choice location of its land and the premier value of its residential base. Property taxes represent 47% of the Village's 2019 total budgeted revenue. There has been significant interest in the residential land development area and annexations trending toward growth. The collection of property taxes continues to be a critical factor in Village operational success.

The Village is also reliant on the State of Illinois shared revenues including income tax from the Local Government Distributive Fund (LGDF), motor fuel tax, personal property replacement tax, sales tax, and use tax, which comprise 18% of the Village's 2019 total budgeted revenue.

As the local economy continues to improve, the Village anticipates additional revenue from new home starts and related development fees. Four new home developments are in progress: Hawthorn Hills (Pulte Group), Hawthorn Trails – Phase 3 (Icon), Stonebridge (William Ryan Homes) and Villas at the Commons (K. Hovanian). Residential development has a limited a positive impact on Village revenues (Community Development Fees – 12%). The diversified housing mix attracts a more diverse population base and offers quality housing choices to attract new families as well as support residential aging in place.

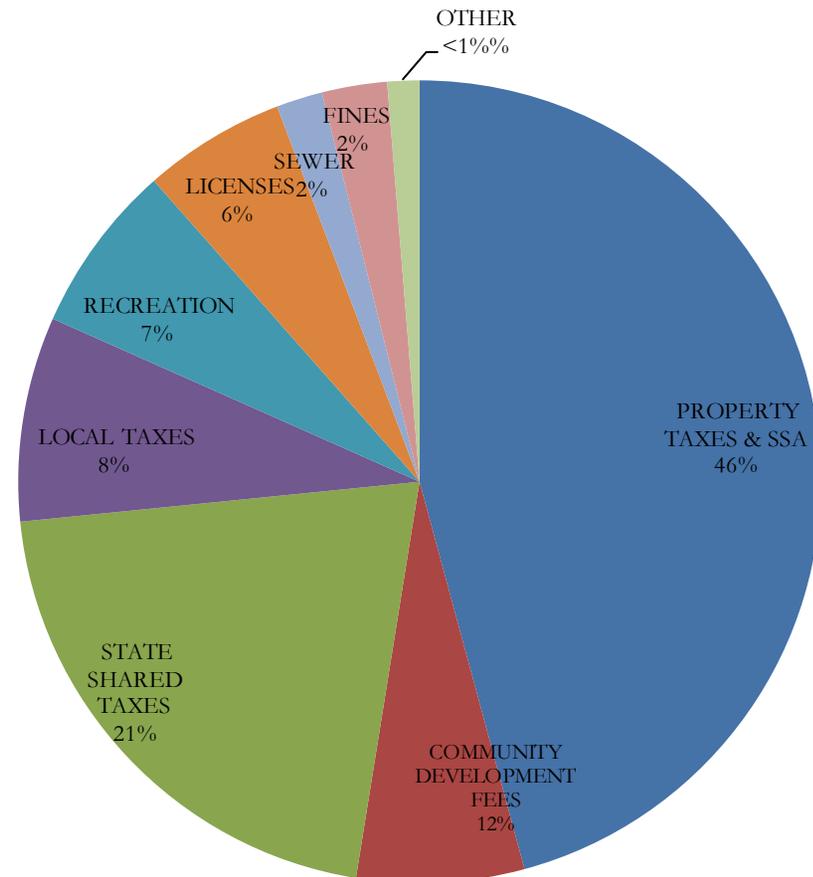

The Village imposes a utility tax on telecommunications, natural gas and electric services. The utility taxes represent 8% of the Village's 2019 total budgeted revenues.

On the following pages, a summary highlights Village revenue sources by major category accompanied by a graph which depicts the applicable percentage of the total revenue. A detailed description of each revenue source follows the summary.

<u>REVENUE SOURCE</u>	<u>2020 BUDGET</u>

2019 - Budget

2019 - Actual

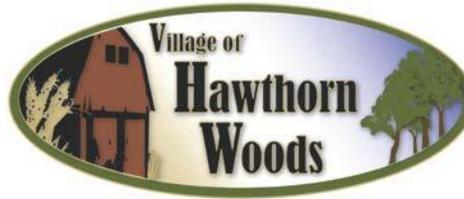

REVENUE DETAIL

1. Property Taxes - The Village of Hawthorn Woods levies a general property tax to support the critical operations of the Village. The Village is subject to PTELL (Property Tax Extension Limitation Law) which restricts the increase in the property tax rate each year by 5% or the CPI (Consumer Price Index), whichever is lower.
2. Property Taxes SSA – The Village of Hawthorn Woods levies property taxes for four Special Service Areas (SSA). SSA #1, #2, and #3 taxes are levied for the repayment of bonds issued to fund a Village-wide road improvement program. SSA #4 taxes are levied against specific properties for the repayment of bonds issued to construct the Midlothian Road sanitary sewer.
3. Amusement Tax – The Village of Hawthorn Woods imposes a 5% amusement tax on businesses that charge admission to watch or engage in entertainment or amusement.
4. State Shared Revenues – The State Shared Revenues are received from the State of Illinois and include the following taxes:
 - a. Local Government Distributive Fund (LGDF) – Based upon population, the Village receives a portion of the State income taxes paid.
 - b. Use tax – Based upon population, the Village receives a portion of the use taxes paid to the State of Illinois when goods are purchased outside of Illinois for consumption within Illinois.
 - c. Personal Property Replacement Tax – This tax includes revenues collected by the State of Illinois to replace money lost by local governments; the law changed in 1979, prohibiting local governments from imposing personal property taxes on businesses.
 - d. Motor Fuel Tax – Based upon population, the Village receives a portion of the motor fuel taxes paid to the State of Illinois.
 - e. Sales Tax – The Village receives 1% of the sales taxes paid when goods are purchased at a business in Hawthorn Woods.
5. Recreation Programs – The Village of Hawthorn Woods recreation programs enhance physical, social, cognitive, and motor skills for participants of all ages. The Recreation Department offers a variety of programs including swim lessons, summer camps, preschool classes, fitness classes, sports, music lessons, chess, fencing, and more.

6. Utility Taxes – The Village of Hawthorn Woods imposes a utility tax on telecommunications, natural gas and electric services. The utility tax was implemented in 2010 to provide a sustainable funding source for the repayment of the Aquatic Center revenue bonds, provide funding for the police pension unfunded liability, provide funding for cash flow due to the State of Illinois delinquent payments in shared revenue, rebuild the Village fund balance reserves, and provide funding for capital improvements.
7. Sales Tax Sharing – IGA – The Village of Hawthorn Woods has various sales tax sharing IGA Intergovernmental Agreements with neighboring communities and Lake County.
8. Licenses – The Village collects various license fees such as dog tags, vehicle stickers, contractor registration fees, liquor licenses, franchise licenses, and business licenses.

WHERE DOES THE MONEY GO?

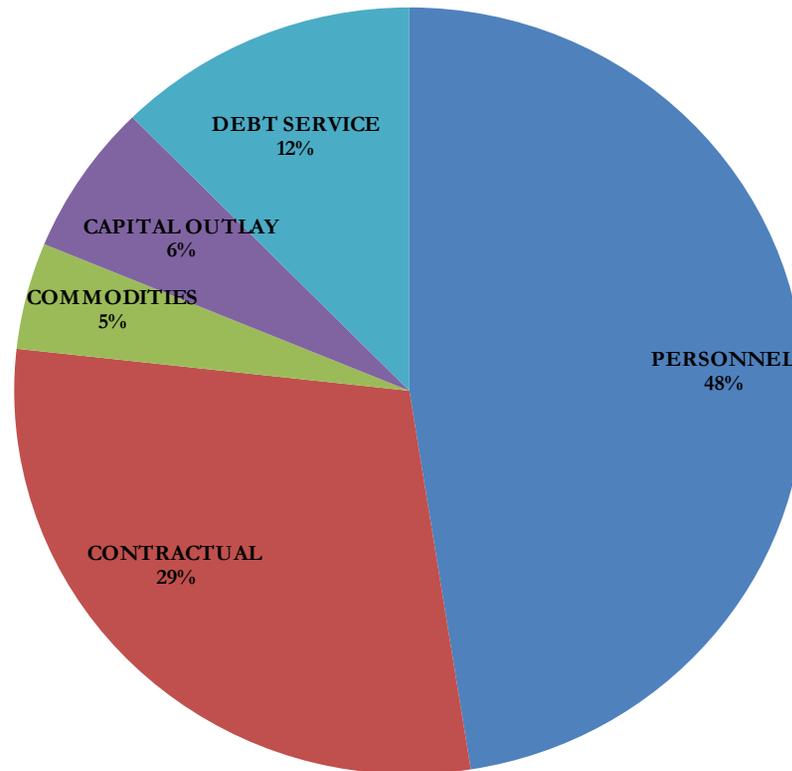

The Village is governed by a Board consisting of a mayor and six trustees, all of whom are elected at-large on a non-partisan basis. Policy-making and legislative authority are vested in the Village Board. The Board is responsible for, but not limited to, passing ordinances, adopting the budget, appointing committees, and hiring both the Chief Operating Officer and Village Attorney. The Mayor is elected to serve a four-year term and the trustees serve four-year staggered terms, with three Board members elected every other year. The elected officials collectively work as a unified Board, volunteer their time and resources to advance good government, and remain supportive of the professionals who run daily departmental operations of the Village government.

The Chief Operating Officer is responsible for administering Board policy and conducting the day-to-day operations of the Village, which include a wide range of services and departments. Those services include administrative, financial, police protection, public works, planning and zoning, economic development, parks and recreation, code enforcement, and cultural/community events. The Chief Operating Officer also serves as the Chief of Staff for the Village. The Chief Operating Officer is also charged with review of the annual budget as prepared by the Chief Financial Officer and Budget Review Team.

CAPITAL ASSET POLICY

The capital asset policy is herein established to safeguard Village assets and to insure compliance with GASB34 for governmental financial reporting.

Safeguarding of Village Assets

Responsibility for control of capital assets will rest with the operating department wherein the asset is located. The Chief Financial Officer shall ensure that such control is maintained by establishing a capital asset inventory. The inventory will include the following for each asset:

- A description
- Asset classification
- Purchasing department along with the physical location of the asset
- The cost
- The estimated useful life of the asset
- Date the asset was acquired and disposed
- Funding source (purchase, donation)
- Salvage value

The list will be maintained, updated and reviewed by the Finance Department on a regular basis. Tagging of assets will not be required.

Operating departments shall report the disposal or relocation of an asset promptly to the Finance Department, or his or her designee, and that change will be reflected in the inventory records. Asset purchases, which fall under the capitalization threshold, will not be included in the capital asset inventory. This is a management decision based on the determination that the cost associated with tracking these assets far outweighs the benefits derived. Each Village location is secure, locked nightly and protected with a security system.

Compliance with Governmental Reporting

With the introduction of GASB34, (which is effective for FY 4/30/05) financial reporting for capital assets is changed. Although the reporting of capital assets will remain basically unchanged for the proprietary funds, there are major changes for reporting capital assets at the governmental level for financial reporting purposes. These changes include the elimination of General Capital Assets Group, the reflection of capital assets (as defined below) in the government wide financial statements along with the inclusion of infrastructure assets. Capital assets shall include land, land improvements, buildings, building improvements, vehicles, machinery and equipment, furniture and fixtures, and infrastructure that meet the following criteria:

- Tangible
- Benefit more than a single fiscal period
- Cost exceeds designated threshold

Capital assets are defined by the Village as assets with an initial, individual cost in excess of \$5,000 an estimated useful life in excess of one year.

Capital assets will be reported at historical cost. The historical cost shall include the direct cost of the asset plus those costs necessary to place the asset in its location or condition (i.e. freight, installation charges.) In the absence of historical cost information, a realistic estimate will be used. Donated assets will be recorded at the estimated fair market value at the date of donation.

Depreciation is computed on a straight-line basis with depreciation computed on a monthly basis from the month of acquisition, using the following estimated useful lives:

Asset Type	Useful Life Years
Buildings	45
Sewer Infrastructure	35
Improvements	20
Equipment	10
Vehicles Police	3
Vehicles Public Works	10
Furniture	7
Office Equipment	5

Additions and improvements will only be capitalized if the cost either enhances the asset's functionality or extends the asset's useful life. The costs of normal maintenance and repairs, including street overlays that do not add to the value of the asset or materially extend asset lives are not capitalized. The following costs for improvements are expensed as opposed to being capitalized:

- Sidewalk/curb patching
- Realignment of sewer line
- Manhole restorations
- Street overlays

The main source for costs of asset additions will be the general ledger.

Land additions will be added to the asset base as they are added in the GIS system thru the Lake County Recorder Office.

Annexations (related land, ROW, infrastructure, roads, water, sewer, and drainage) will be added to the asset base in phases at the end of each fiscal year. Engineering will provide the amount of street and ROW from the (Pavement Management System), and water main, sewer main, storm water main (from GIS) that is added each year. Finance will assign a cost to the infrastructure based on input from engineering and the value of ROW will be calculated at the current fair market value. Land (i.e. Parkland) that is acquired through annexation will also be captured through GIS and will be valued at the current fair market value.

MUNICIPAL SECURITIES CONTINUING DISCLOSURE POLICIES AND PROCEDURES

INTRODUCTION

Purpose

State and local governments, like the Village of Hawthorn Woods, Lake County, Illinois (the “Village”) subject themselves to the requirements of federal securities laws when they issue municipal debt obligations (e.g. bonds, notes, certificates, etc.) via the public bond market.

This Municipal Securities Disclosure Policy and Procedures (the “Policy”) provides a policy framework and establishes procedures for the Village’s compliance with primary and continuing disclosure requirements under federal securities laws for bonds, notes, and other obligations (collectively, “Obligations”) issued by the Village. This Policy was developed to aid the Village in meeting its disclosure responsibilities under Securities and Exchange Commission (the “SEC”) regulations and associated contractual undertakings relating to disclosure.

SEC regulations and enforcement activities regarding disclosure practices (both primary and secondary market) continues to evolve, driven in part, by investors and regulators concerns with the absence of ongoing information of many municipal credits. Large issuers that tend to be in the market more often, provide ongoing information, both in official statements and in periodic financial reports, but small issuers can go years without issuing additional debt, and, thus updating information to the market.

The SEC has undertaken initiatives to improve continuing disclosure compliance by State and local governments through better enforcement and fines. The benefits of timely and complete disclosure include:

- Providing transparency and enhancing credibility with investors, financial analysts and the general bond market
- Ensuring access to public debt markets
- Protecting and enhancing the Village’s credit rating
- Fostering liquidity for securities
- Avoiding penalties and fines

Background Rule 15c2-12 and 10b-5

The framework of the current system of securities regulation was put in place by the Securities Act of 1933 (the “33 Act”) and the Securities and Exchange Act of 1934 (the “34 Act,” and together with the “33 Act,” the “Securities Acts”), which included broad anti-fraud provisions (requiring sellers to tell investors the whole truth) and created the SEC. Although municipal debt was initially exempt from many Securities Acts provisions, amendments passed in 1975 expanded their applicability to include a “government or political subdivision, agency or instrumentality of a government,” making clear that State and local government issuers are not exempt from the antifraud provisions of Section 17(a) of the 33 Act, Section 10(b) of the 34 Act, and SEC Rule 10b-5 (issued under Section 10(a) of the 34 Act).

The SEC has subsequently amended from time to time, Rule 15c2-12 (the “Rule”), prohibiting underwriters from offering bonds unless the issuer provides an official statement (effective 1989) and contractually promises to provide specified disclosures prescribed in the Rule (effective 1994), including annual financial information, audited financial statements (when and if available), and event notices. To facilitate compliance with the Rule, each State Issuer must enter into a continuing disclosure agreement with the original purchaser/underwriter in connection with each new issuance of obligations, thereby contractually promising to provide the market with these disclosures.

Simultaneous with the 1994 amendment to the Rule, the SEC issued an interpretive release repeating its basic assertion of issuer liability under Rule 10b-5 that “disclosure documents used by municipal issuers, such as official statements, are subject to the prohibition against false or misleading statements of material facts, including the omission of material facts necessary to make the statements made, in light of the circumstances in which they were made, not misleading.”

An omitted fact is material if there is a substantial likelihood that, under all the circumstances, the omitted fact would have assumed actual significance in the deliberations of the reasonable investor. There must be substantial likelihood that the disclosure of the omitted fact would have been viewed by the reasonable investor as having significantly altered the “total mix” of information made available. The focus of materiality is on the importance of the information to investors making investment decisions. Examples of information that might be material include: issuer financial statements, unfunded pension liabilities, anticipated loss of significant revenue sources, and anticipated or pending litigation in which there is a potential adverse judgment that could materially affect the issuer’s financial position or operations. No specific listing of material information can be made, as the identification of material information will vary over time, from issuer to issuer, and with the nature of the municipal debt at issue.

NEW ISSUES

Primary Offering Disclosure

When the Village issues Obligations it is directly or indirectly responsible for preparing a preliminary official statement (“POS”) and a final official statement (“OS”). Essentially, these official statements consist of two basic components: (i) Information related to the specific description of the Obligations being offered, transaction details, including but not limited to: authority and security, tax status, redemption features, continuing disclosure, litigation, underwriting/purchaser, legal matters, etc.; and, (ii) Information concerning the Village, including, but not limited to: description of the Village, socio-demographic and key economic data, financial summaries, future financing plans, default history, retirement funding status and other information deemed appropriate.

The POS and OS are intended to provide requisite disclosure to the original purchasers of the Obligations. Description within the POS and OS for any Continuing Disclosure Undertaking should indicate the Village’s intent to combine the presentation of Annual Financial Information within the Audited Financial Statement, eliminating the need for two separate filings, unless the Audited Financial Statement is unavailable within the filing timeframe, for purposes of continuing disclosure.

CONTINUING DISCLOSURE AGENT

Designation of Disclosure Personnel

The Village shall designate a responsible party to monitor and maintain its ongoing continuing disclosure undertakings, as the Village’s primary disclosure agent (“Agent”). In addition to the Agent, the Village shall appoint an alternate or assistant (“Designee”) to the Agent. If a third party (dissemination agent) is selected to assist the Agent, the Village is still responsible for complying with its continuing disclosure undertakings.

Responsibilities of Agent

The Agent shall review and modify, as necessary, the continuing disclosure sections of the POS and OS for new issues and such sections of the OS for existing Obligations, along with their continuing disclosure agreements. The Agent shall maintain a current list of Obligations outstanding during such fiscal year setting forth the Obligation description, initial par amount, date of issuance, rating (if any), year of final maturity and CUSIP number for each such issue. Within the timeframe mandated the Annual Information Filings and the Audited Financial Statements, as required are to be submitted to the Municipal Securities Rulemaking Board (the “MSRB”) using the Electronic Municipal Market Access system (the “EMMA”). If such information is not available within the prescribed timeframe, the Agent shall

provide notice to EMMA of the delay, and if available and relevant, drafts of such information. Additional notices of events may be required, which should be reflected on the list and submitted to EMMA, see “FILING AND NOTICE REQUIREMENTS,” herein. The Agent shall report all filings when made to the Village.

Familiarity with EMMA Submission Process

The Agent shall register with EMMA and review the on-line process of filing with EMMA located at www.emma.msrb.org in order to submit the required information. A tutorial is available on the website along with a practice submission. The MSRB market Information Department may also be contacted at 703-797-6668, and FAQs on MSRB’s Continuing Disclosure Submission Process is available from the MSRB at www.msrb.org/msrb1/emma/pdfs/faqsaboutmsrbscontinuingdisclosuresubmissionprocess.pdf.

The Agent shall enroll the Village in EMMA’s reminder system to ensure timely performance of their responsibilities and obligations.

Training

To ensure adequate resources to comply with the Rule, the Agent shall develop a training process aimed at providing additional assistance in preparing required information. Training shall be conducted, as necessary, and at least annually review the EMMA submission process and any changes for full compliance.

Coordination Effort

To avoid duplication of efforts, the Agent shall discuss/coordinate the preparation and submission of the required information with any Obligation trustees/paying agents to ensure compliance with the Rule and the Continuing Disclosure Undertakings.

FILINGS AND NOTICE REQUIREMENTS

General

Pursuant to the “Rule” under most circumstances, the Village will be required to provide financial and operating information on an annual basis with the MSRB via EMMA, for its Obligations. The Village has issued, or may issue, Obligations which are covered by the Rule and it must comply with any required continuing disclosure filings in a timely manner applicable to each issue of Obligations.

Continuing disclosure information is intended to reflect the financial or operating condition of an issuer as it changes over time, as well as specific events occurring after issuance, that can have an impact on both the ability to pay amounts owed and the market value of the Obligation if bought or sold prior to maturity. Each publically-issued Obligation has its own continuing disclosure requirements, and not all types of continuing disclosure will apply to each.

Consistency of Disclosure

Whenever possible, each new Obligation's continuing disclosure should be consistent amongst other Obligations requiring continuing disclosure agreements. If prior continuing disclosure agreements are not consistent in their requirements, the Village, shall prepare its continuing disclosure information to cover all such requirements, into a consolidated document, to be posted annually to each Obligation.

Continuing Disclosure

Each new municipal debt issuance, per SEC Rule 15c2-12(b)(5)(i), requires a written agreement between the issuer and the original purchaser/underwriter for the benefit of holders of municipal securities. The Rule requires that an underwriter, prior to purchasing or selling an issue of obligations in connection with an offering, determine that the issuer, has provided the following information to the MSRB using EMMA, if any:

- By a specified date, annual financial and operating information for each Obligated Person for whom financial information or operating data is presented in the official statement (an "Annual Information Filing");
- By a specified date, if available, audited annual financial statements for each Obligated Person ("Audited Financial Statements") and, if not available by the date required, unaudited financial statements with Audited Financial Statements within 10 business days of their availability;
- In a timely manner within 10 business days of occurrence, notice of the occurrence of one or more of the listed events described in the Rule (a "Rule 15c2-12 Event Notice");and
- In a timely manner, notice of a failure of any Obligated Person required to make the Annual Information Filing and/or file the Audited Financial Statements on or before the date(s) specified in the Continuing Disclosure Undertaking ("Notice of Failure").

The foregoing list of required disclosures is subject to change in the event of additional amendments to the Rule and corresponding additions to future continuing disclosure agreements.

Annual Information Filing

The Agent shall be knowledgeable and familiar with the provisions of each Continuing Disclosure Undertaking as to the type, format and content of the financial and operating information to be included in each Annual Information Filing, if any, to be made thereunder and the timing requirements for the filing thereof. Such information may be combined and contained within the Audited Financial Statements, however, a Notice of intent to combine such information should be submitted by the Village to EMMA. Continuing Disclosure Undertakings (also may be described within each Obligation's official statement), generally, describe the submission timeframe following (or, within 210 days following) the close of the Village's fiscal year.

Audited Financial Statements

Audited Annual Financial Statements of the Village are also required to be filed no later than the submission dates established under each Continuing Disclosure Undertaking. The Agent shall be knowledgeable and familiar with the specific timing requirements for the filing of Audited Financial Statements and, if not available by the date(s) required, a notice shall be submitted along with unaudited financial statements, if any, as discussed in the terms of each Continuing Disclosure Undertaking.

Rule 15c2-12 Event Notice

Events to be reported within 10 business days of occurrence, certain of which may not be applicable to the Bonds include:

- Principal and interest payment delinquencies
- Non-payment related defaults, if material
- Unscheduled draws on debt service reserves, or on credit enhancements reflecting financial difficulties
- Substitution of credit or liquidity providers, or their failure to perform
- Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the security, or other material events affecting the tax status of the security
- Modifications to the rights of security holders, if material
- Bond calls, if material, and tender offers
- Defeasances
- Release, substitution or sale of property securing repayment of the securities, if material
- Rating changes

- Bankruptcy, insolvency, receivership or similar event of the Village
- Consummation of a merger, consolidation, or acquisition involving the Village or the sale of all or substantially all of the assets of the Village, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material
- Appointment of a successor or additional trustee or the change of name of a trustee, if material
- The failure to provide the Annual Information within the specified time
- Any change in the accounting principles applied in the preparation of the annual financial statements or in the fiscal year

The above list of required disclosures is subject to change in the event of additional amendments to the Rule and corresponding additions to future continuing disclosure agreements

Notices of Failure

The Agent shall be knowledgeable and familiar with the specific requirements for the filing of a Notice of Failure, in particular, to make Annual Information Filings and/or to file Audited Financial Statements by the date(s) required under the terms of each Continuing Disclosure Undertaking.

Voluntary Disclosure

Although the Rule prescribes certain annual information and event-based disclosures that must be filed, issuers may determine that additional information would be of interest to investors. To this end, issuers may choose to voluntarily disclose other information to the MSRB that goes beyond the requirements of the Rule. This information may include, but is not limited to, items such as monthly financial reports, updates on issues that could affect an issuer's budgetary, financial, or economic position, annual/biennial budgets, and changes in rating outlooks.

Preparation

For non-event disclosures, approximately 90 days before the submission date for required filings established under each Continuing Disclosure Undertaking, the Agent shall initiate the process of preparing the financial and operating information required to be submitted thereunder. The Agent shall assemble the information available at that time and determine the scope of additional information to be required and also contact the auditors to establish a schedule for completion and submission for the Audited Financial Statements.

Unless previously submitted, not less than 30 days before the submission date, the Agent shall prepare a draft submission of required financial and operating information, highlighting any information still unavailable.

On or before the submission date established under each Continuing Disclosure Undertaking, the Agent shall make the Annual Information Filing, if any, together with the Audited Financial Statements. If the Audited Financial Statements are not then available, unaudited financial information shall be filed with the MSRB using EMMA and the Audited Financial Statements shall be filed within 10 business days of their receipt and acceptance.

Event filings are to be submitted within 10 days of their occurrence. The Village and Agent shall establish guidelines for materiality, where applicable, of certain events for reporting purposes, they shall establish criteria, if any, for the submission of any voluntary disclosures, and the timeframe for such submissions.

The Agent shall set calendar reminders in the Issuer Finance Department's recordkeeping systems.

Record Retention

The Agent shall maintain records of the MSRB filings on EMMA, including, but not limited to, EMMA posting receipts showing the dates and nature or contents of all filings for each outstanding Obligation of the Village during the fiscal year. Records are to be kept for up to 7 years, in physical or electronic format, after the Obligation mature, regardless if said Obligation was refunded in advance of maturity.

MISCELLANEOUS

Liability

The requirements imposed by SEC regulations can create risks for officials who oversee the disclosure process. While the prudent selection and use of experts can minimize liability and provide certain safeguards, the Village has a level of responsibility for accurate and complete disclosure that cannot be completely delegated. Having a good understanding of the principals of disclosure will enhance officials' ability to make the right decisions when dealing with their own facts and circumstances. The Village will endeavor to use best practices and uniform procedures, and attorneys, consultants or other experts, as necessary, to ensure primary and secondary disclosure is timely completed in full compliance with SEC regulations.

Indemnification

Unless their actions were intentional, the Village agrees to indemnify the Agent and others against any claims that may arise from result from the Village's continuing disclosure efforts.

FUND BALANCE AND RESERVE POLICY

Definitions

Fund Balance – the difference between assets and liabilities in a Governmental Fund.

Nonspendable Fund Balance – the portion of a Governmental Fund’s net assets that are not available to be spent, either short term or long term, in either form or through legal restrictions.

Restricted Fund Balance - the portion of a Governmental Fund’s net assets that are subject to external enforceable legal restrictions.

Committed Fund Balance - the portion of a Governmental Fund’s net assets with self-imposed constraints or limitations that have been placed at the highest level of decision making.

Assigned Fund Balance - the portion of a Governmental Fund’s net assets to denote an intended use of resources

Unassigned Fund Balance - available expendable financial resources in a governmental fund that are not the object of tentative management plan (i.e. designations).

Note: In non-governmental funds, management may decide to “assign” funds for a specific purpose. This will be done as an internal budgeting procedure rather than as a formal accounting entry.

Policy

- A. It is the policy of the Village of Hawthorn Woods to maintain committed fund balance in the General Fund to fund operations for a period of at least four months (“Reserve Fund”). The Reserve Fund in the General Fund is adjusted annually with the adoption of the annual budget and is calculated as approximately four months (35%) of General Fund expenditures (not including transfers to fund capital projects).
- B. It is also the policy of the Village of Hawthorn Woods to assign a portion of Fund Balance for Capital Improvement and Replacement Projects. These funds will be assigned in the General Fund (“Capital Replacement Fund”).

- C. The annual budget (appropriation) will include a contribution to (or drawdown from) the Reserve Fund and the Capital Replacement Fund to assure compliance with this policy. The levels of other required restrictions, commitments and assignments will fluctuate depending on activity.
- D. Unassigned fund balance shall be transferred to the Reserve Fund or the Capital Improvement Fund at year end.
- E. This policy may be amended from time to time according to the wishes of the Village of Hawthorn Woods Board of Trustees.
- F. The Village will spend the most restricted dollars before less restricted, in the following order:
 - 1) Nonspendable (if funds become spendable),
 - 2) Restricted,
 - 3) Committed,
 - 4) Assigned,
 - 5) Unassigned.
- G. The Chief Financial Officer will determine if a portion of fund balance should be assigned.

INVESTMENT POLICY

Policy

In accordance with the laws of the State of Illinois, and under authority granted by the people of the Village of Hawthorn Woods, the Village's Chief Financial Officer is responsible for the investment and safe keeping of unexpended cash funds of the Village of Hawthorn Woods. The investment of the funds of the Village of Hawthorn Woods is directed to the goals of safety of principal, liquidity, and yield in that order. The authority governing investments for municipal governments is set down in the Illinois Public Funds Investment Act. (30 ILCS 235)

Scope

The investment policy applies to all financial assets of the Village of Hawthorn Woods as accounted for in the Village's Comprehensive Annual Financial Report (CAFR). This policy is applicable, but not limited to all funds listed below:

- General Fund
- Special Revenue Funds
- Capital Project Funds
- Debt Services Funds
- Enterprise Funds
- Special Service Area Funds
- Any new funds created by the Village unless specifically exempted

Prudence

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio.

Investments shall be made with judgment and care (under circumstances then prevailing) which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering safety of their capital as well as the probable income derived.

Investment officers acting in accordance with written procedures and the investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

Objectives

The primary objectives of the Village of Hawthorn Woods investment activities are, in order of priority:

- a. Safety of Principal: Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio, while mitigating credit risk and interest rate risk.
 1. Credit Risk-defined as the risk of loss due to failure of the issuer of a security or backer. Credit risk shall be mitigated by investing in investment grade securities and by diversifying the investment portfolio so that the failure of anyone issuer does not unduly harm the Village's capital and cash flow.
 2. Interest Rate Risk-defined as the risk that the market value of securities in the portfolio will fall due to changes in general interest rates. Interest rate risk shall be mitigated by structuring the portfolio based on historic and current cash flow analysis reducing the need to sell securities prior to maturity.
- b. Liquidity: The Village's investment portfolio shall remain sufficiently liquid to enable the Village to meet all operating requirements that may be reasonably anticipated. This can be accomplished by structuring the portfolio so that securities mature concurrently with cash needs to meet anticipated demands. Furthermore, since all possible cash demands cannot be anticipated, the portfolio will also contain securities with active secondary or resale markets.
- c. Yield: The Village of Hawthorn Woods investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the Village's investment risk constraints and the cash flow characteristics of the portfolio.
- d. Diversification: The Village's investment portfolio shall be diversified by:
 - Limiting the investment holdings of a specific issuer or business sector to avoid over concentration in anyone institution or area (excluding U.S. Treasury securities and authorized pools)
 - Limiting investment in securities that have higher credit risk

- Investing in securities with varying maturities (laddering)
- Investing a portion of the portfolio in readily available funds such as local government pools (Le. Illinois Funds) and money market funds to ensure that appropriate liquidity is maintain to meet obligations

Delegation of Authority

Authority to manage and operate the investment program is hereby delegated to the Chief Financial Officer, who shall establish and carry out written procedures and internal controls for the operation of the investment program consistent with this investment policy.

Procedures should include references to: safekeeping, delivery vs. payment (DVP), investment accounting, repurchase agreements, wire transfer agreements, collateral/ depository agreements and banking service contracts. Such procedures shall include explicit delegation of authority to persons responsible for investment transaction. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Chief Financial Officer.

In the event of temporary and permanent inability of the Chief Financial Officer to perform the duties outlined herein, then the investment activities shall be discharged by the Chief Operating Officer.

Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Employees and investment officials shall disclose to the Chief Operating Officer and Chief Financial Officer any material financial interest in financial institutions that conduct business within this jurisdiction. In addition, officers and employees involved in the investment process shall timely file the Lake County Statement of Economic Interest on an annual basis. They shall further disclose any large personal financial/ investment positions that could be related to the performance of the Village of Hawthorn Woods portfolio. Employees and officers shall subordinate their personal investment transactions to those of the Village of Hawthorn Woods, particularly with regard to the time of purchases and sales.

Authorized Financial Dealers and Institutions

A list shall be maintained of financial institutions authorized to provide investment services to the Village, as well as a list of any approved security broker/ dealers. The Chief Financial Officer shall investigate dealers who wish to do business with the Village to determine if they have pending legal action against the firm or the individual broker, and make markets in the securities appropriate to the Village's needs.

The Chief Financial Officer shall send a copy of the current investment policy to all broker/ dealers approved to do business with the Village. A signed copy of this policy's Acknowledgment of Receipt and Agreement to Comply Certification page should be returned to the Village and shall be considered evidence that the dealer understands the Village's investment policies and intends to sell the Village only appropriate investments authorized by this investment policy.

Safekeeping and Custody

All security transactions, including collateral for repurchase agreements, entered into by the Village of Hawthorn Woods shall be conducted on a delivery versus payment (DVP) basis. Securities will be held by a third party custodian as evidenced by safekeeping receipts.

Internal Controls

The Chief Financial Officer shall comply with the State Statute 65 ILCS 5/11-117-13 related to an annual examination of the financial statements by an independent, external auditor. In addition, the Chief Financial Officer is responsible for establishing, maintaining, and operating an effective system of internal control over the investment process.

Authorized and Suitable Investments

The Village of Hawthorn Woods is empowered by statute to invest in the following types of securities as written and amended by the statutes of the State of Illinois:

- a. U.S. Government obligations, U.S. Government agency obligations, and U.S. Government instrumentality obligations
- b. Repurchase Agreements of Government Securities
- c. Interest-bearing savings accounts, certificates of deposit, or any other investments constituting direct obligation of any bank as defined by the Illinois Banking Act; Investments may be made only in banks which are insured by the Federal Deposit Insurance Corporation (FDIC)
- d. Short-term obligations of corporations organized in the United States with assets exceeding \$500,000,000 if
 1. Such obligations are rated at the time of purchase at one of the 3 highest classifications established by at least 2 standard rating services and which mature not later than 270 days from the date of purchase

2. Such purchases do not exceed 10% of the corporation's outstanding obligations

3. No more than 25% of the public agency's funds may be invested in short term obligations of corporations

e. Investment-grade obligations of state, provincial and local governments and public authorities

f. Statewide Investment Pools

g. Any other legal investments allowed by State of Illinois statute

Collateralization

It is the policy of the Village to require that funds on deposit (checking accounts, non-negotiable certificates of deposits, money market accounts, etc.) be covered by FDIC insurance. Deposits in excess of the insurance limits must be collateralized. In order to anticipate market changes and provide a level of security for all funds, the collateralization level will be 102% of market value of principal and accrued interest.

Collateral will always be held by an independent third party in the Village's name with whom the entity has a current custodial agreement. A clearly marked evidence of ownership must be supplied to the Village no less than quarterly and shall be retained.

Diversification

The investments shall be diversified by:

- Limiting the investment holdings of a specific issuer or business sector to avoid over concentration in anyone institution or area (excluding U.S. Treasury securities and authorized pools)
- Limiting investment in securities that have higher credit risk
- Investing in securities with varying maturities (laddering)
- Investing a portion of the portfolio in readily available funds such as local government pools (i.e. Illinois Funds) and money market funds to ensure that appropriate liquidity is maintain to meet obligations

Maximum Maturities

Maturities of investments will be selected based on liquidity requirements to minimize interest rate risk and maximize earning potential. To the extent possible, the Village shall attempt to match investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the Village will not directly invest in securities maturing more than seven (7) years from the purchase date. Reserve funds may be invested in securities exceeding the seven (7) year limitation if the maturity of such investments is made to coincide as nearly as practical with expected use of funds.

Performance Standards

The investment portfolio will be designed to obtain a market average rate of return during budgetary and economic cycles, taking into account the Village of Hawthorn Woods investment risk constraints and cash flow needs.

The Village of Hawthorn Woods investment strategy is passive. Given this strategy, the basis used by the Chief Financial Officer to determine whether market yields are being achieved shall be the current six (6) month U.S. Treasury Bill.

Reporting

The Chief Financial Officer shall review and render quarterly reports to the Chief Operating Officer and the Board of Trustees which shall include the face amount of the cash investment, the classification of investment, the name of the institution or entity, the rate of interest, the maturity date, the current market value and accrued interest to date for all securities.

Investment Policy Adoption & Review

The Village of Hawthorn Woods investment policy shall be adopted by resolution of the Village of Hawthorn Woods Board of Trustees.

This policy shall be reviewed at least every two (2) years by the Chief Financial Officer to ensure that it is consistent with the objectives of safety, liquidity, and yield, and relevance to current law and financial and economic trends. Any amendments to this policy must be approved by the Village Board of Trustees. Acknowledgement of Receipt of the Village of Hawthorn Woods Investment Policy and Agreement to Comply Certification

I have read, fully understand and agree to comply with the Village of Hawthorn Woods Investment Policy.

Any advice or recommendation given by _____, or its representatives, to the Village of Hawthorn Woods will comply with the requirements of the Village's Investment Policy. Any existing investment not conforming to the policy will be disclosed promptly.

FULL TIME EQUIVALENTS (FTE): A part-time position converted to the decimal equivalent of a full-time position based on 2,080 hours per year. For example, a part-time administrative assistant working 20 hours per week would be the equivalent of a .5 full time position.

FUND: An accounting entity with a separate set of self-balancing accounts which comprise assets, liabilities, fund balance, revenues, and expenditures.

FUND ACCOUNTING: A governmental accounting system that is organized and operated on a fund basis.

FUND BALANCE: The assets of a fund less liabilities, as determined at the end of each fiscal year. Any reservations of fund balance are deducted to result in an “unreserved fund balance”.

FUND TYPE: In governmental accounting, all funds are classified into eight fund types: General, Special Revenue, Debt Services, Capital Projects, Special Assessment, Enterprise, Internal Service, and Trust and Agency.

G

GENERAL FUND: The largest fund within the Village, the General Fund accounts for most of the financial resources of the government. General Fund revenues include property taxes, licenses and permits, local taxes, service charges, and other types of revenue.

This fund usually includes most of the basic operating services such as fire and police protection, public works, community development, and general administration.

GENERAL ACCEPTED ACCOUNTING PRINCIPLES (GAAP): Uniform minimum standard of and guidelines to financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. They encompass the conventions, rules, and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. They provide a standard by which to measure financial presentations.

GENERAL OBLIGATION BONDS: Bonds that finance public projects such as streets and municipal facilities. These bonds are backed by the full faith and credit of the issuing government.

GOVERNMENT FINANCE OFFICERS ASSOCIATION (GFOA): Organization of public financial officials that seek to enhance and promote the professional management of governments for the public benefit by identifying and developing financial policies and practices and promoting them through education, training, and leadership.

GOVERNMENTAL FUND TYPE: One of three broad fund categories which also includes proprietary funds and fiduciary funds; this fund category includes activities usually associated with a typical state or local government operation; composed of four types: general fund, special revenue fund, capital projects fund, and debt service fund.

GRANT: A contribution by a government or other organization to support a particular function. Typically, these contributions are made to local governments from the state and federal governments.

H

HUMAN RESOURCES DEPARTMENT: The primary responsibility of the Human Resources Department is to oversee the human resources of the Village. This includes all staffing related issues such as monitoring compliance with the employee handbook, union contracts, pay plans, etc. In addition, the Human Resources Department supports the Village staff development and employee morale.

LIABILITIES: Debts or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date.

LINE ITEM BUDGET: Budget typically used by governmental entities in which budgeted financial statement elements are grouped by administrative entities and objects. These budget item groups are usually presented in an incremental fashion that is in comparison to previous periods. This form of budgeting allows for a good comparison between previous and future estimated expenditure levels within an organization.

LOCAL USE TAX: Any revenue distributed by the State of Illinois to the Village from the state's use tax, a tax levied on items to be used by the purchaser in Illinois but purchased outside of the state.

LONG TERM DEBT: Debt with a maturity of more than one year after the date of issuance.

M

MAINTENANCE: All materials or contract expenditures covering repair and upkeep of Village buildings, machinery and equipment, systems, and land.

MAYOR: The Village Mayor is the chief executive officer of the Village and is elected for a four-year term. The Mayor presides at all Village Board meetings and ceremonial occasions. Although the Mayor is not required to vote on every issue, he/she may be required to exercise voting rights under certain circumstances.

METROPOLITAN ALLIANCE OF POLICE (MAP): Organized labor unit representing sworn officers of the Hawthorn Woods Police Department.

MODIFIED ACCRUAL BASIS: The accrual basis of accounting adapted to the governmental fund type spending measurement focus. Under it, revenues are recognized when they become both "measurable" and "available" to finance expenditures of the current financial period. Expenditures are recognized when the related fund liability is incurred except for (1) inventories of materials and supplies which may be considered expenditures either when purchased or when used; (2) prepaid insurance and similar items which need not be reported; (3) accumulated unpaid vacation, sick pay, and other employee benefit amounts which need not be recognized in the current period, but for which larger than normal accumulations must be disclosed in the notes to the financial statements; (4) interest on special assessment indebtedness which may be recorded when due rather than accrued, if offset by interest earnings on special assessment levies; and (5) principal and interest on long-term debt which are generally recognized when due.

MOODY'S INVESTMENT RATING SERVICE: An independent agency that analyzes the financial credit ratings of organizations. These ratings are based on debt issuance and carry a three letter coding. The Village possesses a Moody's rating of Aa3.

MOTOR FUEL TAX (MFT): This represents revenues for the Village’s share of gasoline taxes, allotted by the state for street improvements.

MOTOR FUEL TAX FUND: The purpose of the Motor Fuel Tax Fund is to account for restricted revenues and expenses related to the State Motor Fuel Tax Allotment.

MUNICIPAL: Of or pertaining to the Village or its government.

N

NET PRESENT VALUE (NPV): Concept used to evaluate the advisability of a capital project; net present value is the present value of future returns, discounted at the marginal cost of capital, minus the present value of the cost of the capital.

NEW PROGRAMS: Planned activities or functions previously not provided. Usually, Village Trustees will consider new programs separately from other budget items.

NON-UNION EMPLOYEES: Employed individuals who are not represented by collective bargaining units.

O

ONGOING ACTIVITY MEASURES: These measures provide annual workload data on the activities of the Village, which occur on an ongoing basis, year after year.

OPERATING BUDGET: A financial plan outlining the estimated revenues and expenditures and other information for a specific period (usually a fiscal year). The “proposed budget” is the financial plan presented by the Chief Operating Officer for consideration by the Village Board, and the “adopted budget” is the financial plan ultimately approved and authorized by the Village Board.

OPERATING EXPENSES: Proprietary fund expenses that are directly related to the fund’s primary service activities.

OPERATING INCOME: The excess of proprietary fund operating revenues over operating expenses.

OPERATING REVENUES: Proprietary fund revenues that are directly related to the fund’s primary service activities. They consist primarily of user charges for services.

P

PARK AND RECREATION FUND: The purpose of the Parks and Recreation Fund is to provide park amenities and recreational programs and facilities for the residents of Hawthorn Woods. The Parks and Recreation funds will be utilized to support programs for all ages and interests and will also be allocated to providing park amenities and community facilities up keep.

PAYBACK PERIOD: The length of time required for the net revenues of an investment to return the cost of the investment.

PER CAPITA COSTS: The cost of service per person. Per capita costs in Hawthorn Woods are based on a population of 7,663 as provided by the 2010 Census.

POLICE DEPARTMENT: The Police Department provides law enforcement of State and local laws, public safety services and solves community concerns and problems through education and enforcement. The Police Department provides patrol coverage, response to both emergency and non-emergency calls for service, provides crime prevention services and conducts investigations. Administratively, the Police Department manages the fiscal responsibilities of the Department and processes and maintains police and court records.

PROPERTY TAXES: Used to describe any tax on the real property of an individual (most commonly, a real estate tax) and may include current taxes, delinquent taxes, penalties and interest on delinquent taxes. The tax is calculated by assessing the market value of the property, standardizing that value with multipliers and then levying the tax on the final equalized assessed value.

PROPOSED BUDGET: A budget document that has not been approved by the Village of Hawthorn Woods' Board of Trustees and is under consideration.

PROPRIETARY FUNDS: Activities found in this category are many times seen in the private sector and are operated in a manner similar to their counterparts in the commercial world; the focus of these funds is on the measurement of net income, composed of two fund types: enterprise funds and internal service funds.

PUBLIC HEARING: The portions of open meetings held to present evidence and provide information on both sides of an issue.

PUBLIC WORKS DEPARTMENT: The purpose of the Department of Public Works is to maintain all public buildings, grounds, parks and the right-of-way areas in the Village. Additionally, the Department cares for 52 miles of roads, 22 Village owned vehicles and 35 miles of storm sewer. The Department oversees all public construction and improvement projects and participates in all programs that improve or maintain the quality of life in Hawthorn Woods.

R

RESERVE: An account used to indicate that a portion of fund balance is restricted for a specific purpose. An account used to earmark a portion of fund balance to indicate that it is not appropriate for expenditure. A reserve may also be an account used to earmark a portion of fund equity as legally segregated for a specific future use.

REPLACEMENT TAX: Any revenue distributed from the State of Illinois to the Village from the state's replacement tax, a tax levied on corporations, partnerships and public utilities to replace the funding lost when municipalities lost the ability to impose a property tax on businesses.

REVENUES: All amounts of money earned or received by the Village from external sources. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues, and interest income.

S

SALES TAXES: The Village receives sales tax from the state distribution.

STREET MAINTENANCE TREATMENTS: Street maintenance treatments are treatments for street surfaces. The benefits of these treatments include postponement of reconstruction, reduced cost per application, and improved drivability of the roadway.

SUPPLEMENTAL APPROPRIATION: Additional budget authority provided for activities or requirements too urgent to be delayed until the next periodic or regular appropriation.

T

TAX BASE: The total value of all real and personal property in the Village as of January 1 of each year, as certified. The tax base represents net value after all exemptions.

TAX LEVY: The resultant product when the tax rate per one hundred dollars is multiplied by the tax base.

TAX RATE: A percentage applied to all taxable property to raise general revenues. It is derived by dividing the total tax levy by the taxable net property valuation.

TAXABLE VALUATION: Estimation of the potential value of an asset or liability for the purposes of measuring the amount of revenues which may be garnered from it.

TAXES: Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. The term does not include charges for services rendered only to those paying such charges, for example sewer service charges.

TRANSFERS: The receipt or expenditure of money in the form of cash, check, or credit.

TRANSFERS IN/OUT: Amounts transferred from one fund to another to assist in financing the services for the recipient fund.

TRANSMITTAL LETTER: The opening section of the budget document which provides the Village Board and the public with a general summary of the most important aspects of the budget, including current and previous fiscal years, as well as the views and recommendations of the Chief Operating Officer.

TRUST AND AGENCY FUNDS: Funds created to account for assets held by the Village in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. These include pension trust funds and agency funds.

TRUSTEE: The Village Board is the legislative body of the Village government and determines all matters of Village policy, approves all Village ordinances and resolutions, and adopts the annual Village budget. The Village of Hawthorn Woods maintains six trustees who are elected in an at-large election with overlapping four-year terms.

U

USER CHARGES: The payment of a fee for direct receipt of a public service by the party benefiting from the service.

V

VILLAGE CLERK: The Village Clerk is responsible for attending all official meetings of the Board of Trustees and preparing the official minutes and providing the Village Seal and attest for all ordinances, resolutions, contracts and bonds of the Village, and such licenses, permits and other documents as required.
